Eileen Pratt, PO stated that the Chief Technology Officer has requested that we secure from BusComm the Laserfiche program, comprehensive maintenance including the LSAP for document management and scanning solutions (Scanning Software) for FY2026.

The agreement between Laserfiche and its resellers states that once a partnership is established between the reseller and customer, no other reseller can sell products or services to the customer unless irreconcilable issues exist between the reseller and the customer. Laserfiche must approve any change in the relationship between a reseller and customer.

We posted a Sole Source Notice on BIDBUY (the Illinois Procurement Bulletin) indicating our intent to procure from BusComm the Laserfiche program, comprehensive maintenance including the LSAP for document management and scanning solutions (Scanning Software). BusComm is our sole source vendor and approved Laserfiche reseller.

The BusComm sole source notice is scheduled to conclude on April 29, 2025. If no protests are received, we will enter into a contract with BusComm for the services described above for a total cost of \$392,283.61.

The Cellebrite software and solutions are used by law enforcement agencies and other national security organizations for various investigations involving the extraction/analysis of digital evidence from mobile digital devices (smart/cell phones).

These packages will provide access to mobile devices and a wide variety of add-on functionality, which will allow OAG investigators to work smarter and faster with automated processes. These Cellebrite services will be utilized in the Forensic Labs.
